

## Summer Term Clinical Work's Framework-2024

Department	Maximum percentage of points that can be made for the upper class	Criteria	Students who are eligible to work
Oral and Maxillofacial Surgery	20%	Each student can complete a maximum of 20% of the required 35 points for 4 <sup>th</sup> Year and 55 points for the 5 <sup>th</sup> Year in the summer term. An appointment must be made from the surgery department in beforehand for the extraction.	The ones who passed to 4 <sup>th</sup> and 5 <sup>th</sup> Year
Oral and Maxillofacial Radiology	-	Students will not be able to make points during the summer term.	-
Endodontics	40%	Each student can complete a maximum of 40% of the annual internship points in the summer term. If they inform the registration desk of the day they want to come, these students are provided with a patient appointment.	The ones who passed to 5 <sup>th</sup> Year
Pediatric Dentistry	30%	Each student can complete a maximum of 30% of the annual internship points in the summer term. They will be able to see their patients by appointment within the working days of the clinic's responsible supervisor, Assos.Prof. Can Özükoç.	The ones who passed to 5 <sup>th</sup> Year
Periodontology	20%	Each student can complete a maximum of 20% of the annual internship points in the summer term. Students who want to treat patients during the summer term are required to inform their clinical responsible supervisors at the beginning of the summer term.	The ones who passed to 5 <sup>th</sup> Year
Prosthetic Dentistry	50%	Each student can complete a maximum of 50% of the annual intership points in the summer term.	The ones who passed to 5 <sup>th</sup> Year
Restorative Dentistry	-	It is not allowed to work for upper class points in the summer term. However, students can work by making an appointment in advance in order to perform the restoration of root canal treatments done by themselves at endodontics department, restorations of their relatives or special procedures such as diastama closure, anterior tooth fracture treatment. For this purpose, they can treat patients 4 days a week, at 4 units, accompanied by a clinical responsible supervisor.	The ones who passed to 5 <sup>th</sup> Year
